

Dear Local Business Owner,

Thank you for taking time to speak with me about your company and how we can help your business ‘be found’ online. Local Splash and its founder have been helping local businesses for over 10 years to improve their ability to be found on the internet by potential customers in their local communities.

We have developed our “Local Splash” products to get your business listed and found by the 3 biggest search engines -- [Google](#), [Yahoo](#), and [Bing](#), so you can grow your business by attracting more customers.

Our *specialty* is getting our customers 1st page placement on Google! Not only do we work to get you on the first page, we work to get your business found in all 3 sections of the search results; maps, organic and sponsored.

Please note the highlighted areas:

Here is an example of what we have been able to do for one of our clients. The highlighted areas show where our client is appearing on the first page; they are being listed in the maps section, organic search and in sponsored links.

Our Local Splash products can do the same for you! **Usually within 4-6 weeks you can have the same results, whether you have a web site or not.**

We have a 3-tier rate plan structure; our rates start as low as \$159 a month. We have no long term contracts and you can stay with us as long as you like. For this, we continue to maintain and update your business information and your search placement. We have a dedicated customer service and provisioning department that are here to provide you with the best possible service.

Thank you again for taking time to speak with me and should you have any questions, please let me know.
